

# Element Biosciences

## Cookie Notice

Effective as of September 05, 2024

This Cookie Notice explains how Element Biosciences, Inc. ("Element Biosciences," "we", "us" or "our") uses cookies and similar technologies in connection with our website – <https://www.elementbiosciences.com/> – and any other website that we own or control and which posts or links to this Cookie Notice (collectively, the "Sites").

You do not need to allow cookies to visit most of the Sites. However, enabling cookies may allow for a more tailored browsing experience and is required for certain parts of the Sites to work.

For further information about this Cookie Notice, please contact us at [privacy@elembio.com](mailto:privacy@elembio.com).

### What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website. Cookies serve different purposes, like helping us understand how a site is being used, letting you navigate between pages efficiently, remembering your preferences, and generally improving your browsing experience.

### What are the key concepts?

First-party cookies. These cookies are served directly by us to your computer or mobile device, which we use to recognize your computer or mobile device when it revisits our Sites.

Third-party cookies. They are cookies that are set by a domain other than that of the website being visited by the user. If a user visits a website and another entity sets a cookie through that website, this would be a third-party cookie. Third-party cookies can be used for a variety of purposes, including site analytics, advertising, and social media features.

Please find below the list of third parties that may place cookies on your device when your visit our Sites, and the links to their privacy notices:

- Google: [Privacy notice](#)
- ZoomInfo: [Privacy notice](#)
- Salesforce Pardot: [Privacy Notice](#)

Persistent cookies. They are cookies that remain on a user's device for the period of time specified in the cookie. They are activated each time that the user visits the website that created that particular cookie.

Session cookies. These cookies allow website operators to link the actions of a user during a browser session. A browser session starts when a user opens the browser window and finishes when they close the browser window. Session cookies are created temporarily. Once you close the browser, all session cookies are deleted.

### What are the categories and purposes of the cookies used on the Sites?

We use "strictly necessary", "performance", "advertising" and "functional" cookies on our Sites:

### Strictly necessary cookies.

These cookies are necessary for the Sites to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but some parts of the Sites will not then work.

We use these strictly necessary cookies to identify you as being logged in to the Sites and to authenticate you, to make sure you connect to the right service on the Sites when we make any changes to the way it works and for security purposes.

### Performance cookies.

These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our Sites. They help us to know which pages are the most and least popular and see how visitors move around the Sites and gather information on error messages. The information these cookies collect is aggregated. If you do not allow these cookies we will not know when you have visited our Sites and will not be able to monitor its performance.

We use performance cookies to perform web analytics and for error management purposes, by measuring any errors that may occur.

### Functional cookies.

These cookies enable the Sites to provide enhanced functionality and personalization. They may be set by us or by third party providers whose services we have added to our pages. If you do not allow these cookies then some or all of these services may not function properly.

### Advertising cookies.

These cookies record your visit to our Sites, the pages you have visited and the links you have followed. We will use this information to make our Sites and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose. These cookies may be set through our Sites by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant adverts on other websites. They are based on uniquely identifying your browser and internet device. If you do not allow these cookies, you will experience less targeted advertising.

## **What types of cookies and similar tracking technologies do we use on the Sites?**

On the Sites, we use cookies and other tracking technologies in the following categories described in our Cookie Preferences Center. You can access it by clicking “Do Not Sell or Share My Personal Information” on the bottom of our Sites.

### **Other technologies**

In addition to cookies, our Sites may use other technologies, such as Flash technology to pixel tags to collect information automatically.

### Web Beacons/Tracking Pixel

We may also use web beacons (which are also known as pixel tags and clear GIFs) on our Sites and in our HTML formatted emails to track the actions of users on our Sites and interactions with our emails. Unlike cookies, which are stored on the hard drive of your computer or mobile device by a website, pixel tags are embedded invisibly on webpages or within HTML formatted emails. Pixel tags are used to demonstrate

that a webpage was accessed or that certain content was viewed, typically to measure the success of our marketing campaigns or engagement with our emails and to compile statistics about usage of the Sites, so that we can manage our content more effectively.

## **Your choices**

You can decide not to accept cookies, except those that are strictly necessary. If you do not accept our cookies, you may experience some inconvenience in your use of our Sites. For example, we may not be able to recognize your computer or mobile device and you may need to log in every time you visit our Sites.

### Cookie Preference Center

You can change the cookie settings when you visit our Sites via our Cookie Banner that is displayed to you when you first visit our Sites, or at any time by visiting the Cookie Preference Center accessible by clicking “Do Not Sell or Share My Personal Information.” Our Cookie Banner and Cookie Preference Center allow you to accept, refuse, and manage the settings of all or some cookies:

- Strictly necessary cookies do not require your consent.
- When we deploy other cookies, you have the possibility to accept all cookies, or only a category of cookies, by clicking on the appropriate acceptance button.

### Blocking cookies in your browser.

Most browsers let you remove or reject cookies. To do this, follow the instructions in your browser settings. Many browsers accept cookies by default until you change your settings. In order to understand these settings, the following links may be helpful. Otherwise, you should use the 'Help' option in your internet browser for more details:

- [Cookie settings in Microsoft Edge](#)
- [Cookie settings in Firefox](#)
- [Cookie settings in Chrome](#)
- [Cookie settings in Safari](#)

### Blocking images/clear gifs.

Most browsers and devices allow you to configure your device to prevent images from loading. To do this, follow the instructions in your particular browser or device settings.

### Third-party opt-out option.

You can opt-out of interest-based advertising through some of the third parties listed in the chart above by using the corresponding third-party opt-out tool provided in the chart.

### Industry association opt-outs.

You may opt out of receiving interest-based advertising on websites through members of the Network Advertising Initiative by clicking [here](#) or the Digital Advertising Alliance by clicking [here](#). You may opt out of receiving targeted advertising in mobile apps through participating members of the Digital Advertising Alliance by installing the AppChoices mobile app, available [here](#), and selecting the user’s choices. Please note that we also may work with companies that offer their own opt-out mechanisms and may not participate in the opt-out mechanisms linked above.

### Blocking advertising ID use in your mobile settings.

Your mobile device settings may provide functionality to limit use of the advertising ID associated with your mobile device for interest-based advertising purposes.

If you do not accept our cookies, you may experience some inconvenience in your use of our Sites. For example, we may not be able to recognize your computer or mobile device and you may need to log in every time you visit our Sites.

If you choose to opt-out of targeted advertisements, you will still see advertisements online, but they may not be relevant to you. Even if you do choose to opt out, not all companies that serve online behavioral advertising are included in this list, and so you may still receive some cookies and tailored advertisements from companies that are not listed.

For more information about how we collect, use and share your information, see our [Privacy Notice](#).

### **Changes**

Information about the cookies we use may be updated from time to time, so please check back on a regular basis for any changes.

### **Questions**

If you have any questions about this Cookie Notice, please contact us by email at [privacy@elembio.com](mailto:privacy@elembio.com).
